LinkedIn: [linkedin.com/in/kevin-lacroix](https://www.linkedin.com/in/kevin-lacroix)

Full-Stack Web Developer with **5+ years of experience in digital agencies**, specialized in **PHP 8+, Laravel, and WordPress custom development**, with strong front-end expertise using **React and Vue**. Experienced in delivering **end-to-end web projects**, from UI integration to backend development, performance optimization, and deployment. Comfortable working in agile, multidisciplinary teams and with international clients.

PROFESSIONAL EXPERIENCE

Full-Stack Developer — Agence Buzz

Mérignac, France | May 2024 — Present

- Developed custom **websites, event platforms, and e-commerce solutions** for agency clients
- Built **custom WordPress themes and plugins** focused on performance, scalability, and maintainability
- Developed front-end interfaces using **React, Astro, SCSS, and JavaScript (ES6+)**
- Created **interactive and animated experiences** using **Three.js and WebGL**
- Integrated **REST and GraphQL APIs**
- Designed and optimized **MySQL databases**
- Developed a **mobile application** using **React Native (Expo)**
- Implemented email automation and CRM workflows using **Brevo**
- Collaborated closely with design, strategy, and event teams

Front-End Developer — Heaven

Paris, France | 2021 — 2023

- Developed and integrated custom **WordPress themes**
- Implemented front-end features using **PHP, SCSS, JavaScript, and jQuery**
- Worked in **agile environments** with designers and developers
- Improved **website performance, SEO, and accessibility**
- Contributed to **high-visibility brand and marketing projects**

Creative Director / Web Integrator — Blacksoap

Paris, France | 2018 — 2021

Creative studio specializing in **brand activation, retail experiences, and digital communication** for international fashion and lifestyle brands.

- Led **3D conception and production of in-store brand corners** for international clients including **Adidas, Levi's, Under Armour, Reebok, Galeries Lafayette, Citadium, Printemps, Obey, Dickies, Kangol**
- Managed the full production cycle: **3D modeling, technical drawings, print-ready files, and on-site installation**
- Coordinated internal teams and external partners (workshops, furniture manufacturers, printers, logistics)
- Organized **on-site assembly**, planning, and delivery under tight deadlines
- Handled **budget discussions, cost estimation, and supplier negotiations**
- Designed and developed **interactive web applications and in-store games** for brand activations
- Integrated **websites and digital experiences** for small and mid-size clients using WordPress
- Acted as a key interface between **clients, creative teams, and technical partners**
